

Application No. 09/701,288
Supplemental Amendment

REMARKS/ARGUMENTS

Applicants note with appreciation Examiner James McClellan's indication in a telephone discussion on March 17, 2005, that the present application is in condition for allowance but for the lack of section headings in the specification.

In response to Examiner McClellan's comments, the specification is revised by the foregoing amendment to add standard specification headings. The foregoing amendment also amends the Abstract only to remove reference numerals, to remove a reference to the "sole Figure," and to correct a typographical error. No new subject matter is introduced by these amendments to the specification.

Consequently, in view of the present amendment, the present application is believed to be in condition for allowance and an early and favorable action to that effect is respectfully requested.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
